Subtitle B – MTBE Cleanup

SEC. 9121. FUNDING FOR MTBE CONTAMINATION.

Notwithstanding any other provision of law, there is authorized to be appropriated to the Administrator of the U.S. Environmental Protection Agency from the Leaking Underground Storage Tank Trust Fund not more than \$400,000,000 to be used for taking such actions limited to site assessment (including exposure assessment), corrective action, inspection of underground storage tank systems, and groundwater monitoring as the Administrator deems necessary to protect human health, welfare, and the environment from underground storage tank releases of fuel containing fuel oxygenates.
